SUBJECT: COMMUNITY INVOLVMENT

Dear Erickson's Flooring and Supply,

I would like to thank you for donating the necessary material to allow me to install a new floor for a greater Detroit area family. I was recently contacted by Lutheran Social Services and informed of the living conditions a single mother of three was experiencing after a water heater burst in their trailer home. Because of a strong commitment to community involvement I immediately knew Erickson's would be willing to donate material if I was willing to donate time and labor. A brief phone call confirmed my belief, and along side Charles Miller of Miller's Wood Shop in Mason, I Installed a beautiful engineered floor for a very appreciative family.

Thank you Erickson's for setting the highest standard in community awareness and involvement.

Thank you,

Fred Rivera
